

EasyPIC v8 for PIC24/dsPIC33 over USB-C

PID: MIKROE-5373

EasyPIC v8 for PIC24/dsPIC33 is a PIC24/dsPIC33 Development Board for Microchip PIC24/dsPIC33 MCUs in DIP packaging. It features USB-C programmer/debugger and contains many on-board modules necessary for device development, including multimedia, CAN, LIN, and others.

Specifications

Type	8th Generation
Architecture	PIC24/dsPIC33 (16-bit)
Programming	USB
Silicon Vendor	Microchip
MCU Socket	DIP
mikroBUS No.	5
Supply Voltage	Battery, USB, External
Category	8th Generation

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
