Tips**  
**Accurate  
Alignment**

**Easy To  
Use**  
**Comfortable  
Grips**

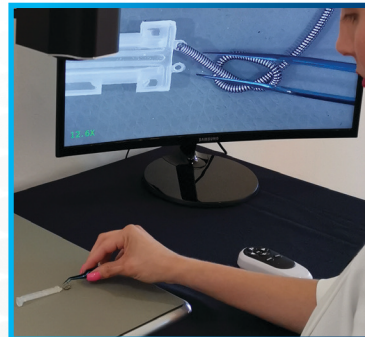

### Corrosion-Resistant Titanium PVD Coating

Blu-Tek tweezers were designed for industrial and laboratory use. The attractive blue finish is a result of a Titanium PVD infusion method, giving the tweezers additional strength, durability, and scratch & corrosion resistance. This process can reduce friction and provide a barrier against damage. The applications for these coatings are ever expanding. Aerospace, automotive, defense, manufacturing and more where long lasting durability is crucial.

Blu-Tek tweezers feature precise tips designed to remain aligned throughout the life of the tweezers.

### Features

- Titanium PVD infusion process adds durability, corrosion resistance, and scratch resistance
- Pressed grip lines add comfort and ease of use
- Precise tip alignment
- 5 popular styles available

Designed for laboratory and industrial use

Also available in a 5 piece kit (Item # 18800BTK)
