- Flame-retardant (colors only)
- Wide range of sizes and colors
- RoHS compliant

TE Connectivity's (TE) Raychem Designed to provide superior mechanical (abrasion, cut through, and strain relief), thermal, and fluid-resistance performance in demanding environments.

Widely used to provide insulation and strain relief of wire terminations and connections. Used for jacketing wire bundles and light-duty harnesses where superior abrasion resistance is a plus. Also used to identify and color code electrical connections and wire bundles.

Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.
