CA-M-20

Alligator-Clip Wires - 20cm, 6-pack, Male breadboard pins, Multiple Colors

CA-M-20 Features:

- Wire is soldered to the alligator clip (not just crimped) for a reliable connection.
- 6 colors provided. 20cm overall length.
- Toothed alligator clip securely grabs wires and parts.
- Smooth machined male pins designed for breadboard use. Strain relief heatshrink tubing.
- Great for use with solderless breadboards (such as the BB830 and BB400).

CA-M-20 Details:

The CA series wires have alligator clips going to male breadboard pins. They are great for making electrical connections between larger off-board parts and your breadboard project. The machined male breadboard pins with strain relief heatshrink tubing provide a reliable long-lasting connection to your breadboard.
