

# Self-seal Fittings KC Series

RoHS

**One-touch fitting (built-in self-seal mechanism) to prevent air exhaust when removing tube.**

**Best for multiple use areas when pressure cannot be shut down.**

**10 types are available.**

**Brass parts are electroless nickel plated.**

**Sealant is standard.**

## Applicable Tubing

Tubing material	Nylon, Soft nylon, Polyurethane
Tubing O.D.	ø4, ø6, ø8, ø10, ø12

## Specifications

Fluid		Air
Maximum operating pressure		1 MPa
Proof pressure		3 MPa
Ambient and fluid temperature		-5 to 60°C (No freezing)
Thread	Mounting section	JIS B 0203 (Taper thread for piping) JIS B 0205 (Metric fine thread)
	Nut section	JIS B 0205 (Metric fine thread)
Seal on the threads (Standard)		With thread seal
Brass parts surface treatment (Standard)		Electroless nickel plated

## Principal Parts Material

Body	C3604, PBT
Stud	C3604 (Thread portion)
Chuck, Spring	Stainless steel 304
Guide	Stainless steel 304, PBT
Collet, Release button	POM
Valve, Retainer	POM
Stopper	C3604, POM
Seal, O-ring	NBR
Gasket	Stainless steel 304, NBR

# KC Series

## Model

### Male connector

KCH P. 209

Use to pipe in the same direction from female thread.

### Straight union

KCH P. 211

Use to connect tubes in the same direction. One of two ports has a self-seal function.

### Male elbow

KCL P. 209

Use to pipe at right angles to female thread.

### Straight plug for frequent use

KCH P. 211

It can save tube cutting labor in the case of frequent tube installation and removal. Use to connect a self-seal fitting and a tube in the same direction.

### Union tee

KCT P. 209

Use to connect tubes in both 90° directions.

### Elbow plug for frequent use

KCL P. 211

It can save tube cutting labor in the case of frequent tube installation and removal. Use to connect a self-seal fitting and a tube at the right angles to a self-seal fitting.

### Union "Y"

KCU P. 210

Use to branch line in the same direction. 2 branched ports has a self-seal function.

### Check adaptor

KCJ P. 210

Use to add the self-seal mechanism to the usual One-touch fittings, KQ series.

### Bulkhead union

KCE P. 210

Use to connect tubes through a panel. One of two ports has a self-seal function.

### Bulkhead connector

KCE P. 210

Use to connect male thread and tube through a panel.

**Male Connector: KCH**

10	KCU10-00	18.5	65.2	44.9	18.5	17.1	24	21	33.3	25.6	37
12	KCU12-00	20.9	70.1	48.8	20.9	19.1	25.5	22	48.9	38.7	49

## Check Adaptor: KCJ

Applicable tubing O.D. (mm)	Model	Applicable fitting size ød	øD	L	A	M	Effective area (mm <sup>2</sup> )		Weight (g)
							Nylon	Urethane	
4	KCJ04-99	4	9.8	49.5	33.5	18	2.6	2.6	9
6	KCJ06-99	6	11.8	54	37	19	6.8	6.8	13
8	KCJ08-99	8	14	61	42.5	21.5	16.2	13.1	20
10	KCJ10-99	10	17	70.4	49.4	24	25.6	20.4	33
12	KCJ12-99	12	19	74.4	52.4	25.5	35.4	30.4	43

### Connecting products with metal rods

Products with metal rods cannot be connected to Series KQ2 One-touch fittings. If connected, the metal rod cannot be retained by the chuck of the One-touch fitting and products with metal rods may project during pressurization, causing serious personal injury or accident.

## Bulkhead Union: KCE

Applicable tubing O.D. (mm)	Model	T (M)	H (width across flats)	L	Mounting hole	M1	M2	Effective area (mm <sup>2</sup> )		Weight (g)

# KC Series/Specific Product Precautions

Be sure to read this before handling the products.  
Refer to back page 50 for Safety Instructions and pages 13 to 17 for Fittings and Tubing Precautions.

## No. of Insertions and Removals from Self-seal Fittings

### ⚠ Caution

- The number of insertions and removals as a rough guide is as follows.
  - Tube.....300 times
  - Metal stem.....1000 times

Self-seal fittings that have once been attached to connecting plugs cannot be used for tube connection.  
It cannot be secured and the fittings will be lurch.

## Installation of Self-seal Fittings

### ⚠ Caution

- The fitting should be installed (installation of R thread portion) by screwing with a spanner at the hexagonal portion of the body. The position of spanner should be a root as close as possible to R thread.  
Hex. across flats may be deformed, if using an improper wrench for hex. across flats.

## Tightening the Thread Portion of an M5 Size Fittings

### ⚠ Caution

- First, tighten it by hand, then give it an additional 1/6 turn with the wrench.  
Excessive tightening may damage the threaded portion or deform the gasket to cause air leakage. Insufficient tightening may leave the thread loosened or cause air leakage.

## Mounting/Piping

### ⚠ Caution

- When mounting tubes, resin plugs, reducers, etc., do not press the release button. This may cause those parts to come off.  
In particular, be aware that when products, such as plug-in elbows or reducers, etc. are mounted, the release button of the fitting on the connection side may be pressed easily due to product handling during piping work.

## Distinction of Plug and Applicable Fittings

### ⚠ Caution

- The applicable fitting should be chosen depending on the type of plug.
  - **Check Adaptor**  
How to use: Use it for addition of self-seal mechanism to a standard One-touch fitting. Self-seal fittings with check adaptor are not available. It causes air leakage.

- **Elbow plug for frequent use, straight plug for frequent use.**  
How to use: For use in the case of frequent tube installation and removal, tube cutting labor can be saved.  
These plugs cannot be connected to One-touch fittings other than self-seal fittings KC series.  
If connected, the metal rod cannot be retained by the chuck of the One-touch fitting and elbow plug for frequent use/straight plug for frequent use may project during pressurization, causing serious personal injury or accident.  
Note the exclusive marking for self-seal fittings before use.

- Connecting products with metal rods**  
Products with metal rods cannot be connected to KQ2 series One-touch fittings.  
If connected, the metal rod cannot be retained by the chuck of the One-touch fitting and products with metal rods may project during pressurization, causing serious personal injury or accident.  
After attaching products with attached metal rods, to the One-touch fitting, do not use tubes, resin plugs, or reducers, etc. This may cause releasing.  
For details about One-touch fittings that can connect KCJ model, contact SMC.

## Tube Insertion and Removal under Pressurized Condition

### ⚠ Caution

- When inserting/removing the tubing is difficult under a pressurized condition, it should be inserted or removed by lowering the pressure or after fully exhausting.
