

4140

Flux Remover for PC Boards

4140 Flux Remover For PC Boards is a blend of ethyl alcohol, isopropanol and ethyl acetate packaged in a convenient aerosol can. It is an eco-friendly dry-cleaning solvent. It has a non-corrosive and non-conductive formulation with a moderate dry time.

Because it is safe for most plastics, seals, heat sinks and printed circuit board components, this flux cleaner spray is widely used in the electronics industry. It is great for removing rosin, non-rosin, no-clean fluxes, and ionic contamination.

For more aggressive cleaning visit our 413B and 413C flux removers.

Read the product SDS before using this product (downloadable at www.mgchemicals.com).

Features and Benefits

- Suitable for use in food facilities as a Non-Food Chemical—Canadian and NFS recognition letters available on request
- RoHS compliant
- Low odor and zero residue
- Safe on most plastics
- Moderate dry time

Properties

Viscosity @ 25 °C	3.1 mm ² /s
Density	0.79 g/mL
Shelf Life	5 y
Flash Point	13 °C
Boiling Point	≥78 °C
Auto-ignition Temperature	≥363 °C
Water Miscibility	Miscible

Available Packaging

Cat. No.	Packaging	Net Vol.	Net Wt.
4140-400G	Aerosol	453 mL	400 g

Storage and Handling

Store between -20 and 40 °C in a dry area, away from sunlight (see SDS).
