

EasyAVR PRO v8 over USB-C

PID: MIKROE-5372

EasyAVR PRO v8 over USB-C is a full-featured development board for high pin-count 8,16-bit AVR® microcontrollers. It contains many on-board modules necessary for device development, including multimedia, Ethernet, USB, and other.

Specifications

| | |
|----------------|------------------------|
| Type | 8th Generation |
| Architecture | AVR (8-bit) |
| Programming | USB |
| Silicon Vendor | Microchip |
| MCU Socket | MCU card 8th gen |
| Supply Voltage | Battery, USB, External |
| Category | 8th Generation |

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
