# Miniature connectors

Snap-In Female panel mount connector, Contacts: 8, unshielded, solder, IP67, UL, VDE Product description

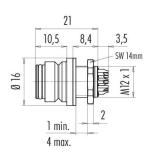

series 720 99 9128 00 08 Area Part no.

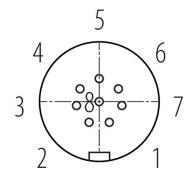

### Illustration

### Contact arrangement (Plug-in side)

You can find the component part drawing and assembly instructions on the next page.

#### **Technical data**

### General features

Part no.	99 9128 00 08
Connector design	Female panel mount connector
Version	Connector socket straight
Connector locking system	snap-in
Termination	solder
Degree of protection	IP67
Cross-sectional area	max. 0.25 mm² / AWG 24
Temperature range from/to	-25 °C / 85 °C
Mechanical operation	> 500 Mating cycles
Weight (g)	5.70
Customs tariff number	85369010
Country of Origin	DE

## **Electrical parameters**

Rated voltage	125 V
Rated impulse voltage	1500 V
Rated current	2.0 A
Insulation resistance	$\geq 10^{10} \Omega$
Pollution degree	2
Overvoltage category	
Insulating material group	
EMC compliance	unshielded

#### Material

Housing material	PA	

# Miniature connectors

Product description Snap-In Female panel mount connector, Contacts: 8, unshielded, solder, IP67, UL, VDE

Area series 720
Part no. 99 9128 00 08

Contact body material PA (UL94 V-0) black
Contact material CuSn (bronze)
Contact plating Au (gold)
REACH SVHC CAS 7439-92-1 (Lead)

SCIP number 3d8423f4-040f-424f-a5e4-ea5b3dcf737f

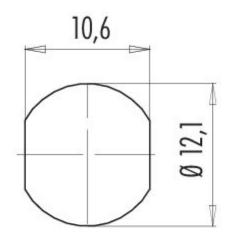

### Authorization/approvals

Approvals UL, VDE

#### Classifications

eCl@ss 11.1	27-44-01-02
ETIM 9.0	EC002635

### Assembly instructions / Panel cut-out

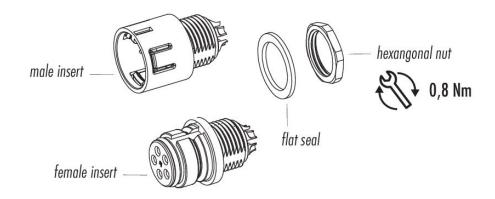

# Miniature connectors

Product description Snap-In Female panel mount connector, Contacts: 8, unshielded, solder, IP67, UL, VDE

Area series 720
Part no. 99 9128 00 08

Area series 720
Part no. 99 9128 00 08

### **Security notices**

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

The user must take suitable safety precautions to ensure that the connector cannot be accidentally disconnected.

Plug connectors with enclosure protection IP67 and IP68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre.

The plug connector is not suitable for mains voltages Please observe the pollution degree and the overvoltage category. For further information, please refer to the download center "Technical Information".
